NICHOLS REBUKES LAND BILL SPONSOR Country Handicapped in Re-

Representative Resents Efforts to Make Profits at Expense of Veterans.

Special Desputch to Tun Sen. WASHINGTON, Aug. 24 .- Charges that several land companies, controlling large tracts of swamp and arid wastes, are carrying on a hation wide propa-ganda for the soldiers' land bill in or-der that this land may be sold to the Government at large profits and later to the soldiers were made to-day by o the soldiers were made to-day by Representative Nichols (Mich.), a member of the House Public Lands Commitice that considered the bill.

Mr. Nichols particularly attacked the Southern Settlement and Development Organization which maintains a press agent in Washington and which, he asserts, is sending out highly colored reports of the land bill to soldiers.

"The facts are," said Mr. Nichols, "that if this bill is enacted into law, as the organization so strongly advocates under the guise of benefitting the service men, thousands of acres of South-ern swamp land will be sold to the Government, at an unfairly higher price than could otherwise be obtained."

Mr. Nichols makes his charges in a letter to Clement S. Ucker, Baltimore, vice-president of the organization, after Mr. Ucker wrote Mr. Nichols, admitting that, the association has a press agent in Washington.

Reports Are Called One Sided. The letter of Mr. Nichols follows:

"I am pleased to have the opportunity to address an official of the Southern Settlement and Development Organiza-tion, an association that has consplcuously attempted to influence Congress in its attempt to determine what should be done for the returned soldiers. In view of the testimony before the com mittee I am of course not surprised that you accept for the organization the responsibility of having employed private funds a press agent to distribute throughout the nation one sided reports of the hearings before the Public Lands Committee on the soldiers land bill, thus misleading the soldiers of the country into thinking the bill was in their in-

ask you if you believe the soldiers of the nation reading the beau-tiful and highly colored description of the benefits to be derived by the soldier from the proposed bill know that the articles were written by a publicity agent employed by a land development organization? You, like many others anxious to promote the development of certain sections of the country, have apparently entirely lost sight of the fact that House bill 407 is a measure that was designed to aid the soldiers. The title reads: To provide employment and iural homes for the soldier." "It is too bad that in the mad and

St. Alphage, Dating Back to 1013, Will Be Razed.

Special Correspondence to The Sus.

London, Aug. 15.—London is to lose another of its historical churches. The parishioners of St. Alphage, London Wall, have dropped to thirty-five, and the church will now be amalgamated with the Parish of St. Mary the Virgin and the building will be razed.

Relatives of persons buried in the church may claim their remains, and the court may claim their remains.

Mr. Hicks said he believed there was a fruitful field for American business men if exchange conditions can be improved and providing they are willing to sell their products on long term credits. "However," said Mr. Hicks, "the American business man who contemplates sending a large amount of sup-With 415 passengers and 1,753 sacks of mail the White Star liner Baltic port yesterday after an uneventful voyage from Liverpool. Building Slowly in Britain.

Mr. Grace said he was glad to learn the ships of his New York-South Amer-ican lines are being released by the Government as the troop movement slows down. They will soon be running

to capacity, he said.

Joseph W. Isherwood, inventor of the
Isherwood system of longitudinal bracing for ships, who also arrived on the Baltic, confirmed Mr. Grace's views as to conditions in the shipbuilding industry in Great Britain. He said the builders were booked up with orders. No contracts are being made for delivery in less than two or three years, he said, and few builders are willing to under-take new contracts on account of the uncertainty of the labor situation. BRITISH SHIPPING IN CONTAINER FIGHT LOST BY SHIPPERS

Will Cost Consumers \$2,-000,000 Yearly.

Efforts of various trade organizations n the wearing apparel and kindred lines to defeat the pean of the American Railway Express Company to require shippers to change the system of packing their merchandise by introducing outside containers of different weights in accordance with the weights of the packages of goods have been unsuccessful. ful. The express company contends that the pilferage from boxes in transit, which now runs into millions a year, will be reduced to a minimum if the

ecntainers are of heavier weight.

Although this argument was flatly contradicted by the organizations of shippers, who pointed out to the Rail-road Administration and officials of the Interstate Commerce Commission some time ago that in their opinion the pil-ferage and other losses were brought about not by the improper use of con-tainers but by "inefficient railroad express employees." The Railroad Ad-ministration has turned deaf ears to the appeals of the shippers and the new regulations will go into effect three months

According to representatives of the trade bodies shippers of merchandise in New York city alone will be affected to the extent of \$2,000,000 additional ex-

pense yearly as a result of the new reg-ulations.

M. Mosessohn, executive director of the United Waist League of America, who went to Washington as a represen-tative of the trade organizations to ap-peal to officials, declares that the action "Tonnage can neither be bought nor chartered abroad. The shipping of England is still under the control of the Government, which controls all movements of vessels. To me it looks and packing, which will have to be added to the cost of the merchandise bought by the consumer bought by the consumer and "every one in the United States will be penalized because the express company, instead of bettering its service, takes the easiest way of protecting its own interests at the expense of the consuming public.

"The Railroad Administration claims that it has not the expense."

that it has put this subject up to every State Railroad Commission, and because the latter have filed no objections and a few have even approved the changes the administration feels that it should also indorse the request of the express company. This of course is a fallacy of a most material character

"If the Railroad Administration would of its own accord make tests of the different weights of corrugated boxes and ship the same to various parts of the country in order to directly ascertain the carrying ability of the packages, then would it intelligently determine th Raw Silk Quotations From Japan.
